Math Standards:

7. EE.3 Solve multi-step real-life and mathematical problems posed with positive and negative rational numbers in any form (whole numbers, fractions, and decimals), using tools strategically. Apply properties of operations as strategies to calculate with numbers in any form; convert between forms as appropriate; and assess the reasonableness of answers using mental computation and estimation strategies.

Success Criteria:

- Students can use fractions to help reduce a recipe and the ingredients.
- Student can use proportions and serving sizes to calculate the amount of food needed to serve Thanksgiving dinner for a given amount of people.
